## Election Integrity Springs Forth in April - Micro to Macro - And How You Can Help

### *Message from CPOC President Deborah Pauly, J.D.*

We continue to grow and expand CPOC's reach each month. Our March meeting featured 11 of the 23 candidates, vying for 9 seats as an Orange County Superior Court Judge. It was very well-attended by patriots from around the county and 8 new members joined after the meeting. CPOC invited all 23 judicial candidates, who were given an opportunity to present themselves, their backgrounds and credentials. Then they fielded two randomly drawn questions from a range of 16 questions designed to discern judicial temperament and philosophy. A twelfth candidate was unable to attend last minute due to courtroom responsibilities. Three of the five candidates for Seat #30, were contacted the day before our event due to the unique and most unusual nature of filings for that seat, when Judge Frank Ospino died after declaring his intent to seek re-election. Those three were unable to attend, but sent messages that were read to those in attendance.

We know that some of you could not attend because we had to move to a lunchtime meeting in order to accommodate St Patrick's Day evening festivities at the Santa Ana Elks Lodge. As a public service, the candidates were videotaped and edited for length by James Wallace. There is a 4-part series from that forum on the CPOC website, which you will find under The Cal Report heading. We also featured "The People's Choice" for Attorney General Eric Early. You will find his presentation there under Part 4 of the series. Expect CPOC to release "Recommendations of the Board" in the coming weeks for those races.

These judicial races are county-wide. You can vote for all 9 seats that are up for election. These races are down ticket. So, we must be sure to vote the entire ballot. Do not ignore these races. Once they win a seat on the bench, it is nearly impossible to unseat an incumbent judge, no matter what they do. The judiciary is our last line of defense. Little judges at the district-level today become the big judges at the appellate and supreme court levels tomorrow.

April's meeting will return to the regular evening dinner schedule...and it's going to be a doozy! You don't want to miss it.

April is all about Election Integrity and CPOC's own Election Integrity Committee, lead by Chairman James Peters, will present data, hard truths and plans for how to address voting irregularities. We will hear from the Election Integrity Project-California and then receive a federal perspective on how we fit into the bigger picture of securing, preserving and protecting the sanctity of our votes. Volunteer opportunities will be presented. This is an all-hands-on-deck emergency. We'll wrap up the Election Integrity focus by hearing from Rachel Hamm the leading candidate for California Secretary of State, where the rubber meets the road on statewide voting.

We have been working and supporting the School Choice initiative since early December. Bob Walters, OC Chairman for the School Choice Initiative, reminds us that petitions are due by April 6. So, if you have any completed petitions they must be mailed directly to the central collection center at 600 Lincoln Avenue, Pasadena 91109. Do not delay. According to Bob, it's very close.

No Jab? No Job? No WAY!!! CPOC participated in another successful grassroots effort to expose and lobby against another bad bill working its way through Sacramento, which produces a never-ending stream of bad bills. AB1993 would have mandated that anyone employed in California, including independent contractors, had to get a vaccine in order to work in the state. Isn't that just outrageous? The bill was slated to be heard in the Labor and Employment Committee on March 30 2022, but after being inundated with activist phone calls opposing the bill, the author withdrew it.

Finally, be sure to mark your calendar now for May 19, 5:30 p.m. We will host a fun and informative Pre-Primary Candidates PARADE AT THE PODIUM. Every Orange County voter is invited to attend this candidate mixer in a Trade Show environment. Think All-American food fare at rock bottom prices. We want this to be affordable to everyone. If you know a candidate for federal, state or county office, let them know they should sign up to attend.

Details are on our website: [ConservativePatriotsofOC.org](http://ConservativePatriotsofOC.org).

**HATS OFF TO CPOC TREASURER  
NANCY TUCKER**

Nancy Tucker, our treasurer, is perfectly suited for her job because she loves handling money!

Nancy is the keeper of the books and excels at keeping the board on budget.

She's a stickler for vouchers, money transmittals and making sure our revenues are meeting expenses.

She provides monthly treasurer's reports at our general membership meetings and also fills in, when needed, with other money-related matters.

CPOC is thankful for an exacting, strict and reliable comptroller.

Let's show our sister patriot some love !

**Mission Statement:**

*"The Conservative Patriots of Orange County sponsor educational programs and activities to support conservative principles and candidates in all elections. We believe that the Constitution of the United States guarantees the inherent rights of "we the people" by limiting the power of government.*

## VLADIMIR PUTIN IS 'PLAYING' BIDEN LIKE A 'FIDDLE'

Putin acknowledged Russian-dominated areas of Ukraine, which was followed by a brief invasion of “peacekeepers,” who traveled by bus rather than APC. Putin does not require a full-scale invasion since his strategy is brilliant. He is willing to go to any length to attain his goals and if an invasion, Most likely surgical, is his only option, he’ll accept the risk.

Moreover, sanctions after the event, as their deranged President advocates, will not dissuade Putin. He perceives weakness and indecision among Western leaders, most notably Biden. He’ll almost certainly underestimate Putin as unwise as underestimating any opponent. Putin is a one-dimensional man if you consume American media. To reclaim former Soviet satraps, he could use subversion and deception. However, Russia is not the titan that Cold War-obsessed think-tank analysts portray. A powerful individual, an apex predator, as Putin assesses his rivals.

Furthermore, Joe Biden and his managers blatantly and recklessly threw away the United States’ most powerful tool in deterring Putin: (1) American energy independence,

(2) our capacity to meet much of Western Europe’s energy demands (particularly Germany’s), and

(3) Biden’s imprudent acceptance of Russia’s [Nord Stream 2 Pipeline](#).

Putin considers Biden to be coming from a position of strength or weakness. If he’s a focused strategist, the pressure of massed soldiers and armaments may be enough to cause the capitulations he needs to achieve his aim.

In negotiations, Biden will give Putin de facto control of Ukraine while denying doing so. In exchange, Putin would “deescalate” along Ukraine’s borders, and the media will portray Biden as a statesman whose jawboning saved the country from war. Isn’t it true that, while Putin is playing Biden, the President is also trying to play people, the American people? No, the dog isn’t wagging in this case.

Undercover the increasingly phony COVID epidemic Joe Biden [declares an emergency](#). Affluent white progressives profit from +ump’s back after the 2020 elections to convince his PRC counterpart that a nuclear war on China would be prevented?

## Death Tax Initiative

# Urgent!

California has passed a death tax on property that could affect your family.

The Howard Jarvis Taxpayers Association is collecting signatures on official petitions to qualify an initiative for the ballot to **Repeal the Death Tax**.

Parents should be able to transfer property to their children without triggering reassessment and a huge tax increase.

Order your petition now at: <https://www.hjta.org/take-action/sign-petition/>

Get signatures **as soon as possible, and return signed petitions to:**

Howard Jarvis Taxpayers Association  
921 11th Street, Suite 1201  
Sacramento, CA 95814

## Sign the petition to Repeal the Death Tax

- ◆ Parents should be able to transfer property to their children **WITHOUT** triggering reassessment and a **HUGE TAX INCREASE**.
- ◆ Voters were **TRICKED INTO REMOVING** that protection from state law when they passed Prop. 19 in **November 2020**.
- ◆ The Repeal the Death Tax initiative will **RESTORE** this important taxpayer protection for California families.
- ◆ **FAMILIES** benefit because the death of a parent won’t trigger an **UNAFFORDABLE TAX HIKE**.
- ◆ **RENTERS** benefit because this measure stops sudden reassessment of family-owned apartment buildings, which could lead to higher rents or eviction if the landlord dies.

**2022— PREDICTION FOR UNITED STATES OF AMERICA**

In 1959, Nikita Khrushchev delivered his message to the United Nations: "Prediction for America". the U.N. TV coverage showed him banging his shoe on the podium. At that time the term "communism" was feared throughout our nation---as it should be today.

**THIS IS HIS ENTIRE SPEECH:**

"Your children's children will live under "Communism", You Americans are so gullible. No, you won't accept Communism outright. But we will keep feeding you small doses of Socialism until you will finally wake up and find you already have Communism.

We will not have to fight you, we will weaken your economy, until you fall like overripe fruit into our hands."

Nikita Khrushchev, 1959

Remember, Socialism leads to Communism.

There are six levels of control that must be obtained before you are able to create a social state.

**HEALTHCARE** - Control healthcare and you control the people

AB1400 California Universal Healthcare failed to be voted on February 2022 due to it not having enough votes to pass. But the authors of the bill said they would not give up.

**POVERTY** - Increase the poverty level as high as possible. Poor people are easier to control and will not fight back if you are providing them everything to live. California has the highest homeless population in the U.S.

**DEBT** - Increase the debt to an unsustainable level. That way you are able to increase taxes and this will create more poverty.

**GUN CONTROL** - Remove the ability for citizens to defend themselves from the government. That way you are able to create a police state.

**WELFARE** - Take control of every aspect (food, housing, income) of their lives because that will make them fully dependent on the government.

**EDUCATION** -- Take control of what people read and listen to and take control of what children learn in school. This is happening now!!!!!! Critical Race Theory and sex education taught in early grades without parental consent. No freedom of choice as to what your child goes to. Teacher unions are against charter schools . They only want Government-run schools.

**RELIGION** - Remove belief from the government and schools because the people need only to believe in only the government knowing what is best for the people .

**CASE/RACE WARFARE** - \_Divide the people into the wealthy/poor and race against race. Eliminate the middle class. This was cause more discontent and it will be easier to tax the wealthy with the help of the poor.

We are already seeing this being played out in America.

**BEWARE!!!!**

*"A LIBERAL SOCIALIST'S PARADISE WOULD BE PLACE WHERE EVERYBODY HAS GAURANTEED EMPLOYMENT, FREE COMPREHENSIVE WELFARE, FREE EDUCATION, FREE FOOD, FREE HOUSING, FREE CLOTHING, FREE UTILITIES, AND ONLY LAW ENFORCEMENT HAS GUNS. BELIEVE IT OR NOT, SUCH A PLACE DOES INDEED ALREADY EXIST.....IT'S CALLED PRISON."O*

*Election Integrity***Voter Fraud***James V. Peters, CLU, ChFC*

In listening to the Voting Integrity Conference in Pennsylvania on March 19th on Right Side Broadcasting. I heard a broader explanation of how elections are being stolen.

Before each election, the 'bad' guys add fake voters onto the voting rolls. Once the election starts they front load Day One fake voting ballots at the Registrar of Voters office to help the "chosen" candidate win. The voting machines act like a quarterback in football by calling plays throughout the election process, flipping votes whether by software, internet hackers or 'bad' guys managing the election, at the end of the election insert fake votes on the last day to secure their candidate wins. After the election is completed closed, they take the "fake voters" off the voter rolls and. They repeat the process every election

An example of voter fraud in Orange County:

In the 2018 Orange County General Election Audit Report reported 1.4 million votes cast and in the warehouse. On the Official Voting Report, they disclosed 1.1 million votes cast. So, they did not need over 300k fake votes for Biden to win.

As the saying goes, "Pigs get fat, but hogs get slaughtered." The 'pigs' were so greedily blinded by their hatred for Trump that just like a hog, their election trickery came swiftly to an end.

In Wisconsin, Pennsylvania, and Michigan with more voters in 2020 than registered voters they were truly acting like hogs and with God's grace it is just a matter of time before those states are decertified.

From the shutting down of schools, to closing businesses, to stealing the 2020 election, then using the FBI, Antifa and the District of Columbia police to stop the Electoral Congress from challenging the stolen election, then falsely stating it was an insurrection, the January 6 political prisoners became a by-product, they have offended most Americans.

As Churchill once said, "America, the sleeping giant, has been awakened and the War is won." Most Americans are now awake and know something is not right, and things need to be fixed.

A new day is coming soon, and America will once again be that "City Shining on a Hill," as President Ronald Reagan said.

This presents one of the greatest opportunities for America to gain back the freedom our Founding Fathers envisioned for our country. The right to vote in a republic and for our vote to count, it is time to take back our elections and get the Democrats out of the ivory towers of government and give it back to the those who are truly elected, as Trump in 2016 and in 2020.

**Proof of Citizenship Now Required to Vote In Arizona**

Arizona Gov. Doug Ducey on Wednesday signed legislation to expand U.S. citizenship voting requirements in the state, a measure that critics warn will jeopardize the voter registrations of thousands of Arizona residents.

In signing House Bill 2492, Ducey disputed testimony from local officials and voting rights advocates who say an unknown number of voters — predominantly older, longtime Arizona residents — will be purged from the state's voter rolls because the last time they registered to vote, there was no requirement to provide proof of citizenship. Critics say those voters would then need to register again.

**Election Integrity Bill Goes To Youngkin's Desk**

A bill has passed both the senate and the house in Virginia [prohibiting state offices and officials from using money or grants](#) from private individuals or corporations to exercise their election duties. This bill is a response to the revelations that much money, most notably from Facebook's Mark Zuckerberg to the tune of hundreds of millions of dollars had an undue influence on elections across the nation.

**U.S. Election Integrity Lawyers Are Being Targeted**

Longtime Clinton ally and George Soros-funded Media Matters for America founder David Brock is advising the 65 Project.

Former Senator Tom Daschle — a board member of a new dark money, left-wing group targeting conservative election integrity lawyers — took a trip to China sponsored by the China-United States Exchange Foundation (CUSEF), a key communist group flagged by the U.S. government for its efforts to infiltrate American politics, media, and academia.

The 65 Project seeks to deter right-wing lawyers from fighting on behalf of election integrity by attempting to dispar and intimidate lawyers who fought for the issue during the 2020 election. In addition to the former Democratic Senate Majority Leader from South Dakota, longtime Clinton ally and George Soros-funded Media Matters for America founder David Brock is also advising the 65.

## ELECTION INTEGRITY

### Huge Voter Fraud Scandal Advances...excerpts from the Populist Press

Georgia's ballot harvesting probe advances as state elections board have approved subpoena power that allows Secretary of State investigators to compel testimony delivery of evidence, and it is the power that is sending Democrats into a panic.

The news about an ongoing Georgia investigation that was started in January of 2022, addresses whether third-party liberal activists illegally gathered thousands of absentee ballots in the 2020 general election and a subsequent runoff- and it now has gotten a boost of energy...

A group called True the Vote has been instrumental in numerous states organizing official complaints about the election that has resulted in forcing the government to investigate their claims of voter fraud.

The focus of the election is on a GA Senate race that was won suspiciously, and determined Democrat control of the U.S. Senate, after a highly problematic General election just weeks prior.

The new power was a major win for Secretary of State Brad Raffensperger, guided by True the Vote, who announced the investigation into alleged ballot harvesting in January and was seeking the subpoena authority to assist the probe.

Now Raffensperger's team can get evidence about a whistleblower who alleged to an election integrity group that he participated in a large operation to gather ballots in which activists were paid \$10 for each ballot they delivered

Under Georgia law, it is illegal for any third party to pick up and drop off ballots for voters, also known as ballot harvesting. According to reports, at least 242 people made over 5,000 ballot drop-offs during the Georgia Senate runoff elections.

Raffensperger's office told media that they would secure evidence from the election integrity group True the Vote, who filed a complaint in November saying it had acquired evidence including videotapes, a whistleblower's admission and cell phone location records.

### Read the Election Integrity news release :

The mayor and city clerk of Madison, Wisconsin, are being accused of election bribery in a complaint filed March 17, 2022, in the State of Wisconsin before the Elections Commission. Thomas More Society attorneys acted on behalf of a Madison, Wisconsin, voter to levy allegations against Madison Mayor Satya Rhodes-Conway and Madison City Clerk Maribeth Witzel-Behl, stating that these officials acted in violation of Wisconsin's election bribery law, Statute § 12.11, by accepting private money from the Center for Tech and Civic Life in order to facilitate in-person and absentee voting.

The complaint filing comes on the heels of a trend, in which 16 states have now passed legislation to ban or regulate the acceptance and use of private funds by public election officers. Thomas More Society attorneys have litigated this issue successfully in eight states. Arizona and Texas passed legislation addressing this issue, and in Michigan, Pennsylvania, and Wisconsin, the legislature passed laws regulating this conduct, but those laws were vetoed by Democrat governors. Three other

states, Minnesota, Iowa, and South Carolina have passed bills regulating this conduct, and are now waiting for those bills to be enacted. In Wisconsin, several counties, including Walworth County and Brown County, have passed, or are considering such bans, of so-labeled "dark money" in elections.

The Madison complaint contends that Rhodes-Conway and Witzel-Behl entered into an agreement with the Center for Tech and Civic Life, a partisan, special interest organization, to accept more than \$1.2 million to facilitate in-person and absentee voting in the city, which is a violation of Wisconsin law. The Center for Tech and Civic Life is a non-profit Chicago-based organization, led and staffed by former Democratic activists and funded by billionaire Facebook founder Mark Zuckerberg and his wife, Priscilla Chan, to influence the 2020 election.

This latest complaint before the commission follows a previous complaint against Kenosha, which asserted violations of election law and bribery of election officials by the Center for Tech and Civic Life. Additionally, the first round of Wisconsin Election Commission complaints filed by Thomas More Society attorneys representing groups of private citizens also included allegations against Kenosha, Racine, Green Bay, and Milwaukee.

**Attorney Erick Kaardal, Thomas More Society Special Counsel, explained that the complaint details a massive scheme on the part of the Center for Tech and Civic Life, to usurp the administration of the election, a core traditional governmental function. Under the guise of COVID-19 prevention and via the illegal dumping of private money into the municipal process, the Center for Tech and Civic Life handed control of the 2020 election in Wisconsin over to private partisan interests, in the form of its "partners."**

**"We can't undo the wrongs of the 2020 election," Kaardal observed, "But it is incumbent upon us to ensure that the corruption that infected Wisconsin's voting process is rooted out and that the state's election integrity is preserved. Wisconsin's voters deserve to know the truth and they need to be assured that the snakes in the grass have been hunted down and eliminated, allowing for fair and honest elections from this point forward."**

I believe Arlington National Cemetery contains 400,000 reasons why you should stand your ass up to the National Anthem. \*\*\* Senator John Kennedy, Republican, Louisiana

## U.S. SUPREME COURT

### REMEMBERING the Black woman Biden blocked from the Supreme Court The Washington Post, February 1, 2022 Mark A. Theissen, Senior Fellow

President Biden wants credit for nominating the first Black woman to the Supreme Court. But here is the shameful irony. As a senator, Biden warned that if Bush nominated the first Black woman to the Supreme Court, he would kill her nomination.

The story begins in 2003, when Bush nominated Justice Janice Rogers Brown to serve in the US Court of Appeals for the District of Columbia. The DC circuit is considered the country's second most important court and has produced more Supreme Court justices than any other federal court. Brown was immediately hailed as a potential Supreme Court nominee. She was highly qualified, having served seven years as associate justice of the California Supreme Court – the first Black woman to do so. She was the daughter and granddaughter of sharecroppers and grew up in rural Alabama during the dark days of segregation, when her family refused to enter restaurants or theaters with separate entrances for Black customers. She rose from poverty and put herself through college and UCLA law school as a working single mother. She was a self-made African American legal star. But she was an outspoken conservative. Biden, and his fellow Democrats filibustered her nomination, also with several other Bush circuit court nominees. Columnist Robert Novak called it “the first full-scale effort in American history to prevent a president from picking the federal judges he wants.” Democrats argued that she was out of the legal mainstream, but Republicans responded she has written more majority opinions than any other justice on the California Supreme Court—and she was reelected with 76 percent of the vote, the highest percentage of all the justices on the ballot.

When Democrats derailed her nomination, Bush renominated her in 2005. Brown was eventually confirmed by a vote of 56 to 43 – after Democrats released her and several other Bush nominees in exchange for Republican agreement not to eliminate the filibuster for judicial nominations. Biden voted a second time against her nomination. He never explained why, if Brown was so radical, Democrats allowed her through but killed 10 other Bush nominees.

The following month when Justice Sandra Day O'Connor announced her retirement, Brown was on Bush's shortlist to replace her. She would have been the first Black woman ever nominated to serve as an associate justice of the Supreme Court. But Biden appeared on CBS's “Face the Nation” to warn that if Bush nominated Brown, she would face a filibuster. “I can assure you that would be very, very, very difficult fight and she would probably be filibustered,” Biden

said. Asked by moderator John Roberts, “Wasn't she just confirmed?” Biden replied that the Supreme Court is a totally different ballgame because “a circuit is bound by state decisis. They don't get to make a new law.”

What Biden threatened was unprecedented. There has never been a successful filibuster of a nominee for associate justice in the history of the republic. Biden wanted to make the first Black woman the first in history to have her nomination killed by filibuster. Bush eventually nominated Samuel A. Alito Jr.

Today, Biden calls the filibuster a ‘relic of the Jim Crow era’. But he threatened to use that relic as a tool to keep a Black woman off the highest court who lived under Jim Crow off the highest court in the land. The irony is that now he wants to get rid of the filibuster and claim credit for putting the first Black woman on the court.

There are many conservatives on Bush's shortlist whose legal philosophy Biden opposed. But Biden only opposed to filibuster only one Black. Why? Perhaps a clue lies another confirmation fight that Biden helped waged. In 2001, Democrats blocked the nomination of Miguel Estrada to the US Court of Appeals for the D.C. District Court. According to internal strategy memos obtained by the Wall Street Journal, they targeted Estrada at the request of liberal interest groups who said Estrada was “especially, because he was and White House, was grooming him for a Supreme Court appointment.” They did not want the first Hispanic on the Supreme Court. So, Biden and his fellow Democrats killed Estrada's nomination - the first appeals court nominee in history to be successfully filibustered. It paid off when President Barack Obama nominated Sonia Sotomayor as the first Hispanic justice.

Democrats' commitment to diversity is a ruse. Biden was willing to destroy the careers of an accomplished Latino lawyer and a Black female judge and stop Republicans from putting either on the Supreme Court. For Democrats, it all about identity politics. Indeed, Biden might not have been president had it not made the pledge to nominate a Black woman. That promise helped secure the vote of Rep. James E. Clyburn (D-S.C). -- won the South Carolina primary and rescued his faltering campaign.

So, when Biden tries to bask in the glory of historic nomination, remember Janice Rogers Brown - the Black woman who does not sit on the Supreme Court today because of Biden's disgraceful obstruction.

**THE NIGHT WATCHMAN**

Once upon a time the government had a vast scrap yard in the middle of a desert.

Congress said, "Someone may steal from it at night." So, they created a night watchman position and hired a person for the job.

Then Congress said, "How does the watchman do his job without instruction?" So, they created a planning department and hired two people, one person to write the instructions, and one person to do time studies.

Then Congress said, "How will we know the night watchman is doing the tasks correctly?" So, they created a Quality Control department and hired two people. One was to do the studies and one was to write the reports.

Then Congress said, "How are these people going to get paid?" So, they created two positions: a timekeeper and a payroll officer then hired two people.

Then Congress said, "Who will be accountable for all of these people?" So, they created an administrative section and hired three people, an Administrative Officer, Assistant Administrative Officer, and a Legal Secretary.

Then Congress said, "We have had this command in operation for one year and we are \$918,000 over budget, we must cut back." So, they laid off the night watchman.

NOW slowly, let it sink in.

Quietly, we go like sheep to slaughter. Does anybody remember the reason given for the establishment of the DEPARTMENT OF ENERGY during the Carter administration?

Anybody? Anything? Anyone? No? Didn't think so!

Bottom line is, we've spent several hundred billion dollars in support of an agency, the reason for which very few people who read this can remember!

Ready??

It was very simple... and at the time, everybody thought it very appropriate.

The Department of Energy was instituted on 8/04/1977, TO LESSEN OUR DEPENDENCE ON FOREIGN OIL.

Hey, pretty efficient, huh???

**AND NOW IT'S 2022 -- 45 YEARS LATER -- AND THE BUDGET**

**FOR THIS "NECESSARY" DEPARTMENT IS AT \$242 BILLION A YEAR. IT HAS 16,000 FEDERAL EMPLOYEES AND APPROXIMATELY 100,000 CONTRACT EMPLOYEES; AND LOOK AT THE JOB IT HAS DONE!**

(THIS IS WHERE YOU SLAP YOUR FOREHEAD AND SAY, "WHAT WERE THEY THINKING?") 34 years ago 30% of our oil consumption was imports. Today 70% of our oil consumption is imports.

Ah, yes -- good old Federal bureaucracy.

NOW, WE HAVE TURNED OVER THE BANKING SYSTEM, HEALTH CARE, AND THE AUTO INDUSTRY TO THE SAME GOVERNMENT? What can go wrong?

Hello!! Anybody Home?

**Researchers Find 255,000 'Excess Votes' for Biden**

By [T. Roebuck](#) In [Featured](#), [Latest News](#)

John Lott of the Crime Prevention Research Center, the study's author, [found](#) "evidence of around 255,000 excess votes (possibly as many as 368,000) for Joe Biden in six swing states where Donald Trump lodged accusations of fraud."

"Biden only carried these states – Arizona, Georgia, Michigan, Nevada, Pennsylvania, and Wisconsin – by a total of 313,253 votes. Excluding Michigan, the gap was 159,065," .

The study examined voter registration rolls, actual in-person vote counts, absentee voting, and provisional ballots in counties where fraud had been alleged or suggested.

Lott then compared those counts to neighboring areas, reasoning that the percentages should be similar. But he encountered major disparities. The peer-reviewed study found unexplained votes and other problems including absentee ballots and votes from convicted felons.

"In Fulton County, Georgia, 2,423 voters were not listed on the state's records as registered, and 2,560 felons voted even though they had not completed their sentences," .

Lott concluded his report, stating: "'The voter turnout rate data provide stronger evidence of significant excess Biden votes in Arizona, Georgia, Michigan, Nevada, Pennsylvania, and Wisconsin. The estimates imply that the counties wherein vote fraud was alleged returned between 142,000 and 368,000 excess Biden votes."

"While the findings reported here are dramatic, they may be underestimates because the voter turnout estimates do not account for ballots cast for the opposing candidate that are lost, destroyed, or replaced with ballots filled out for the other candidate. ."

**KHRUSHHEV’S PROMISE TO AMERICA**

In 1959, Nikita Khrushchev delivered his message to the United Nations: “Prediction for America”. the U.N. TV coverage showed him banging his shoe on the podium. At that time the term “communism” was feared throughout our nation---as it should be today.

THIS IS HIS ENTIRE SPEECH:

“Your children’s children will live under “Communism”, You Americans are so gullible. No, you won’t accept Communism outright. But we will keep feeding you small doses of Socialism until you will finally wake up and find you already have Communism.

We will not have to fight you, we will weaken your economy, until you fall like overripe fruit into our hands.”

Nikita Khrushchev, 1959

Remember, Socialism leads to Communism.

#####

There are six levels of control that must be obtained before you are able to create a social state.

**HEALTHCARE** - Control healthcare and you control the people

AB1400 California Universal Healthcare failed to be voted on February 2022 due to it not having enough votes to pass. But the authors of the bill said they would not give up.

**POVERTY** - Increase the poverty level as high as possible. Poor people are easier to control and will not fight back if you are providing them everything to live. California has the highest homeless population in the U.S.

**DEBT** - Increase the debt to an unsustainable level. That way you are able to increase taxes and this will create more poverty.

**GUN CONTROL** - Remove the ability for citizens to defend themselves from the government. That way you are able to create a police state.

**WELFARE** - Take control of every aspect (food, housing, income) of their lives because that will make them fully dependent on the government.

**EDUCATION** -- Take control of what people read and listen to and take control of what children learn in school. This is happening now!!!!!! Critical Race Theory and sex education taught in early grades without parental consent. No freedom

of choice as to what your child goes to. Teacher unions are against Charter Schools . They only want Government-run schools.

**RELIGION** - Remove belief from the government and schools because the people need only to believe in only the government knowing what is best for the people .

**CASE/RACE WARFARE** - \_Divide the people into the wealthy/poor and race against race. Eliminate the middle class. This was cause more discontent and it will be easier to tax the wealthy with the help of the poor.

We are already seeing this being played out in America.

**BEWARE!!!!**

*“A LIBERAL SOCIALIST’S PARADISE WOULD BE PLACE WHERE EVERYBODY HAS GAURANTEED EMPLOYMENT, FREE COMPREHENSIVE WELFARE, FREE EDUCATION, FREE FOOD, FREE HOUSING, FREE CLOTHING, FREE UTILITIES, AND ONLY LAW ENFORCEMENT HAS GUNS. **PLAN TO RESCUE AMERICA****SENATOR RICK SCOTT (REPUBLICAN FLORIDA)  
ELEVEN-POINT PLAN TO RECUSE AMERICA**

- 1. EDUCATION: Our kids will say the pledge of allegiance, salute the Flag, learn that America is a great country, and choose the school that best fits them.**

This point also includes getting back to teaching kids about the genius philosophy behind America and focusing on the three R's while doing away with anti-American political indoctrination in the classroom.

- 2. COLOR BLIND EQUALITY: Government will never again ask American citizens to disclose their Republican Senator Rick Scott out of Florida has released his 11-point Plan to Rescue America**

- 3. SAFETY AND CRIME: The soft-on-crime days of coddling criminal behavior will end. We will refund and**  
*CONTINUED ON NEXT PAGE.*

Enforcement of laws, cleaning up crime-ridden cities, and zero tolerance for "mostly peaceful" protests — what's not to love?

- 4. IMMIGRATION: We will secure our border, finish building the wall, and name it after President Donald Trump.**

How splendid is this? The great President Trump will be immortalized as his signature policy is finally completed. Controlled immigration and required assimilation round out this desperately needed policy correction.

- 5. GROWTH/ECONOMY: We will grow America's economy, starve Washington's economy, and stop Socialism.**

"We will shrink the federal government, reduce the government workforce by 25% in 5 years, sell government buildings and assets, and get rid of the old, slow, closed, top-down, government-run-everything system we have today." Yes, please!

- 6. GOVERNMENT REFORM AND DEBT: We will eliminate all federal programs that can be done locally and enact term limits for federal bureaucrats and Congress.**

Can you hear the choirs of angels? Term limits! And not just for career politicians, but for swamp-dwelling bureaucrats, too! Repeat after me: Service to your country is not a career; it's a sacrifice you make, away from your real life, as a gift to your homeland and her people.

- 7. FAIR FRAUD-FREE ELECTIONS: We will protect the integrity of American Democracy and stop left-wing efforts to rig elections.**

The goal here is to thwart Democrats' plans to institutionalize conditions favorable to rigging elections and committing fraud.

- 8. FAMILY: We will protect, defend, and promote the American Family at all costs.**

This point is all about protecting, honoring, and preserving the nuclear family and natural parenting. No government program is a viable replacement for a parent, and government has no business inserting itself between parents and their children.

- 9. GENDER, LIFE, SCIENCE: Men are men, women are women, and unborn babies are babies. We believe in science.**

God knows that Americans are ready for some relief from the wildly destructive, irrational, lunatic "gender theory" that has been crammed down our throats for the past few years. Don't even get me started on the incredibly harmful effect it's had on far too many children and the lives it's destroyed.

- 10. RELIGIOUS LIBERTY & BIG TECH: Americans will be free to welcome God into all aspects of our lives, and we will stop all government efforts to deny our religious freedom and freedom of speech.**

I'll argue that this one could go further and defend ALL the first amendment from Big Tech censorship. What part of "freedom of speech" don't they understand?

- 11. AMERICA FIRST: We are Americans, not globalists.**

Energy independence, supply chains that depend on allies only, no aid to nations that oppose us or that don't defend themselves, and no more trade that takes away jobs or otherwise misemploys Americans. You love to see it.

## EDUCATION AND EMPLOYMENT

### No degree is the new degree

BY [Isaac Morehouse](#)

EPOCH TIMES, March 6, 2022

'Would you rather hire someone who ran a marathon, or had a [college](#) degree?'

I remember when I saw this question posed on LinkedIn. It got hundreds of responses, all of whom said they'd pick the marathoner.

It turns out, the story most young people have been told about the value of degrees on the job market isn't true, and it's getting less true every day.

A few years ago, I talked to a business owner who turned down a candidate I passed along because he had a master's degree. He told me, "He seems smart and has some skill, but he's been in school too long. It will take me too much time to get those habits out of him. Plus, I've found people with advanced degrees tend to be entitled and assume they're worth more than they are."

The famous venture capital firm Andreessen Horowitz developed a framework for evaluating which entrepreneurs were most likely to succeed with their startups. One of the strongest indicators was being a college drop-out. The courage and out-of-the-box thinking needed to overcome social pressure and quit school was a bullish sign.

All these stories share one takeaway in common: a college degree doesn't do a good job of signaling employability. In fact, choosing not to get one can be a better signal.

And no wonder. Employers routinely report that college graduates lack basic skills they look for in new hires. In fact, less than 10 percent of employers think colleges do a good job of preparing students for the working world.

A lack of useful skills is only part of the problem. Graduates are saddled with debt, often taught absurd ideas from professors disconnected from the real world and encouraged to see themselves as victims. Add to that binge-drinking and increasingly draconian policies around health and politically correct speech, and campuses have become a place to pick up bad habits and bad ideas.

Employers want to know you can create value. "B.A. in Communications" on a resume doesn't convey much. But you know what does?

A good opt-out or dropout story.

I've seen hundreds of young people with no degree and no experience get jobs that said a bachelor's and 2 to 3 years of experience were required. They won these jobs because they showed something more valuable than a few static bullets on a resume. They explained why they chose not to go to college, and that they did an apprenticeship, internship, self-guided study program, or project instead.

Employers love it. They get excited. Instead of someone simply taking the path of least resistance and muddling through college because their parents paid for it, they see individuals willing to forge their own way, think clearly about costs and benefits, and take initiative.

That's why college alternative programs often boast placement rates of [90 percent or better](#) immediately upon graduation, while [just 40 percent](#) of university students have jobs within three months after graduation.

Young people who prioritize real-world experience, self-directed learning, and creating an interesting life for themselves are increasingly sought-after over those who do the normal college thing.

What began as a countersignal for startup founders and high-tech jobs is spreading to more and more roles as hiring managers discover the best traits are better correlated with opt-outs than the college-educated. The most dynamic companies need to see more than the same piece of paper everyone else has.

It's not that college is too good for many young people; it's that more and more young people are too good for college.

### H.R. 78

**Representative Ken Calvert (R, IA) introduced H.R. 78, the Legal Workforce Act, early last year.** Calvert stated:

"American jobs should only go to people legally authorized to work in our country. The passage of the Legal Workforce Act would represent a crucial step towards fixing our broken immigration system. Until we have a mandatory workforce verification system -- like E-Verify -- in place, immigrants will have an incentive to come into our country through illegal means. We want and need immigrants to come to our nation to contribute to our economic success, but we must also remain a sovereign nation governed by the rule of law."

H.R. 78 currently has 15 Republican cosponsors and no Democratic cosponsors.

There are numerous reasons why Democratic representatives should support mandatory E-Verify legislation.
