President Pro-Tem Message
Deborah Pauly, J.D.

A New Year with a New Organization and a New Direction

The Conservative Patriots of Orange County (CPOC) is a new, locally-focused organization that was chartered Oct. 12, 2021 as a completely autonomous 527 political not-for-profit entity. It emerged from the recent dissolution of the Orange Republican Women Federated (ORWF), which served this area's Republican Party interests for many decades.

CPOC held its first official event and fundraiser, the Fantasy of Trees, Dec. 4, 2021. It was a huge success in every way. Everyone had so much fun. We had hoped for 120 attendees, but had over 185. We collected over 170 new toys, plus \$100 in gift cards for the children of the 15th Marine Expeditionary Unit (15 MEU) that we support. Please, see pictures in this premiere edition of the Conservative Chronicles. We raised enough money to operate for the coming year. We are so grateful to the generous attendees for that.

We also bid farewell to our brave leader, the founding president of CPOC, Andrea Krupka, as she stepped down after leading us through dissolution and establishment of a more grassroots-responsive, inclusive and action-oriented organization. She left big shoes to fill.

CPOC is different in a number of ways. Membership is open to both men and women. CPOC is non-partisan, which means it welcomes those who identify as independents, no party preference and Libertarians, in addition to Republicans, so long as they adhere to the values and principles of our nation's founding as contained in the Constitution of the United States of America. At its core, CPOC supports limited government, local control, sound fiscal management, the free market and holding elected officials accountable.

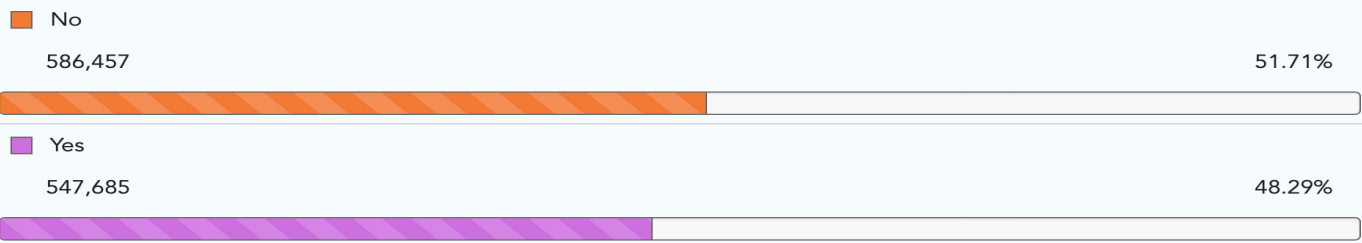

Please take note of the graph below. It was pulled from the Orange County Registrar of Voter's website. The Republican Party could not even deliver Orange County for the recall of Gavin Newsom last November. Those of us who cherish our country must all work together to restore her. There is a lot of work to be done, right here in our own backyard. It will be up to patriot groups like CPOC, where pursuing sound public policy — not raising campaign dollars to line the pockets of insiders — is the driving factor. Encourage like-minded friends, neighbors and family to join our effort because where there are many hands, the load is light.

May God bless you and keep you securely in the palm of His hand today and throughout 2022.

Recall Question

Shall GAVIN NEWSOM be recalled (removed) from the office of Governor?

CONSERVATIVE PATRIOTS OF ORANGE COUNTY

CPOC is the new kid on the block! We are energized to take the United States back to its foundation in capitalism and freedoms as proclaimed by our forefathers in the Bill of Rights. Our mission statement lists first that education is the key to what we want to achieve. We want an informed electorate. Our membership goal is to be inclusive. We will strive for members of all ages who are male, female, Republican, Conservative, Libertarian, Independent, and Decline to State.

Our monthly meetings will highlight prominent speakers and elected officials on current events, legislation, and political issues and solutions. Our first meeting will be January 20, at the Elk’s Club in Santa Ana; See page one for details, date and location TBA.

If you are ready or know somebody who wants to take back our once great nation, CPOC will give you the voice you need.

QUESTION ????

Across America, employees, students, and military are being told:

- Get a vaccination or get fired...
- Get a vaccination or don’t come to school
- Get a vaccination or you’re dishonorably discharged

Have you heard it anywhere?
Vaccinate or **NO** welfare!
Vaccinate or **NO** food stamps!

MEMBERSHIP

Michele Markel

Membership promotion is the heart of CPOC. Each CPOC member is encouraged to recruit new members.

A CPOC membership application is in this issue of the **CONSERVATIVE CHRONICLE**.

Members are encouraged to carry a copy of the application with them,

Although I am the Membership Chairman, all CPOC members are part of the membership committee.

TOGETHER — one of most inspiring words in the English language. Coming together is a beginning. Keeping together if progress. Working together is success.

EDUCATION

CNN IS LYING ABOUT CRITICAL RACE THEORY

Virginia Lieutenant Governor-Elect Winsome Earle

All of history should be taught, the good, the bad, and the ugly. But that doesn't mean students should be brainwashed into thinking that America is fundamentally racist, which is what Critical Race Theory teaches.

We all know that CRT is in our schools because it's right in front of us. This year Loudoun County schools paid \$314,000 to ensure their teachers were spreading Critical Race Theory.

In 2019, Virginia's Superintendent of Public Instruction sent out a memo to Virginia schools promoting Critical Race Theory.

In 2015 then-Governor McAuliffe's Department of Education instructed Virginia public schools to "embrace critical race theory" to "re-engineer attitudes and belief systems."

I could go on and on, but you and I already know the truth

I don't watch CNN for the same reason I don't drink water from the toilet.

A LITTLE CHUCKLE

Sean lives in California... He is sick of the world, of COVID-19, Trump, Russian belligerence, China's aggression, global warming, racial tensions, and the rest of the disturbing stories that constantly occupy media headlines. Sooo, he decided to end it all...

Sean drove his car into his garage and then sealed every doorway and window as the best he could. He got back into his car and rolled all the windows down, selected his favorite radio station, started the car, and revved it to a slow idle.

Ten days latter, a worried neighbor peered through the garage window and saw him in the car. She notified the emergency services and they broke in, pulling Sean out of the car.

Miraculously, a little sip of water later and Sean was in perfect condition. But, his Tesla had a dead battery.

Sean is a Democrat.

THE WACKY NEW LAWS GOING INTO EFFECT IN CALIFORNIA IN 2022

By John Harper.

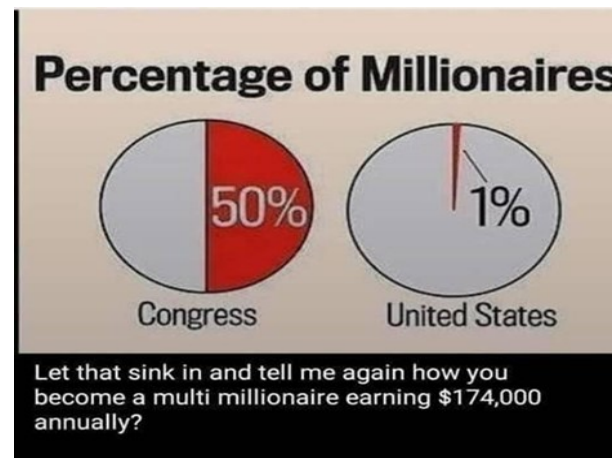

A recent study by the Cato Institute, the libertarian think tank, ranked California 48th out of the 50 states in personal and economic freedom. The study also examines fiscal policy and regulatory policy. For the first time, California's population decreased last year, resulting in the loss of a congressional seat. In the third quarter of this year, 150,000 more people on average left the state versus 60,000 net departures in the first quarter of last year. Between March 2020 and September 2021, there has been a 38% decrease in new arrivals. California has 58 counties, and new arrivals fell in every single one.

As to the loss of personal and economic freedom, consider the following examples.

As of the end of 2021, a publicly held company headquartered in California must have between one and three female board members, depending upon its size, or face a fine of \$100,000. Proponents insist that female membership on boards of directors increases profits. One wonders why companies do not simply sack their male members in favor of an all-female board.

The California Department of Education has proposed an "equitable math" framework. California Political Review says the framework "promotes the concept that working to figure out a correct answer is an example of racism and white supremacy invading the classroom."

Mission Statement:
"The Conservative Patriots of Orange County sponsor educational programs and activities to support conservative principles and candidates in all elections. We believe that the Constitution of the United States guarantees the inherent rights of "we the people" by limiting the power of government and that we are one nation under God."

IMMIGRATION

DURING UNPRECEDENTED BORDER CRISIS BIDEN ROLLS OUT RED CARPET FOR ILLEGALS

*By Greg Aprahanian
December 5, 2021*

Submitted by Betty Robinson

Over two million illegal aliens have attempted crossing into the US through the US/Mexico border in 2021. From April 2020-April 2021 the United States has seen a 900% increase in border apprehensions and since January 2021 we have had a 1300% increase in unaccompanied minors.

Demographics of illegal entries on the US/ Mexico border has also changed. The majority continue to be Mexican nationals, the second largest group are from the northern triangle countries Honduras, Guatemala and El Salvador, but there has been a huge jump in illegal entries from citizens from Ecuador, Brazil, Nicaragua, Venezuela, Haiti, and Cuba.

One of the most notable changes is the expulsion rate for apprehended illegal border crossers. According to Pew Research the expulsion rate for illegal aliens apprehended in Feb. 2021 (the first full month of President Biden's presidency) was 74%, In September 2021 the expulsion rate dropped to 54%. Meanwhile, enforcement in the interior of the country has basically stopped.

Since the overall number of apprehensions has skyrocketed and the expulsion rate of illegal border crossers has dropped dramatically under the Biden administration, Biden's administration has implemented new techniques to process and distribute the surge of illegals that his administration is allowing to enter the US.

First, illegal aliens are given a court ordered notice to appear. With this notice to appear many illegal border crossers are given a TSA waiver, which allows them to board a domestic flight to the US

city of their choice. This flight is paid for by the US taxpayer and Mark Morgan, former acting commissioner of US Customs and Border Protection says: "There is no way to 100% guarantee the identity of everyone coming across our borders illegally', and the room for fraud is wide.,,"

After flying on a domestic US flight, without verified I.D., the illegal immigrants are then transported to hotels around the country and housed (once again at taxpayer expense).

One of the many hotels that the illegal aliens are brought to is the Four Points Sheraton near SeaWorld in San Diego California (3888 Greenwood Street, San Diego CA) at a cost of **\$46,000 per day**. National media has basically been silent about this.

Immigration activists from We, The People Rising, America First Latino's and 25th Congressional District Immigration Coalition paid a surprise visit to the Four Points Sheraton to learn more about how the Biden Administration is forcing US taxpayers to house foreign nationals that illegally cross our border. We learned that President Biden puts these illegal border crossers up in first class accommodations, is happy to provide illegal aliens with a border wall, and with private security so their privacy and safety is insured, as well as a medical staff to care for their needs. Unfortunately, we also noticed the all too familiar abundance of American homeless and homeless veterans in the area that receive none of the attention, care and Biden administration.

At the Four Points Sheraton in SeaWorld, we witnessed the red carpet, rolled out for illegal border crossers, but American homeless and American veterans nearby are left outside to fend for themselves on the streets. This fact shows the world that under President Biden, illegal border crossers merit priority and homeless veterans come last — dead last.

IF YOU BELIEVE THAT JOE BIDEN, WHO LOST TWO ATTEMPTED PRESIDENTIAL RUNS, THEN ON HIS THIRD ATTEMPT, HID IN HIS BASEMENT AND REFUSED TO CAMPAIGN, GOT THE MOST VOTES IN HISTORY...YOU'RE WAY TO STUPID TO ARGUE WITH.

AN ELECTRIFIED FUTURE

What's a person to do?

Imagine Florida with a hurricane coming toward Miami. The Governor orders an evacuation. All cars head north. They all need to be charged in Jacksonville. How does that work? Has anyone thought about this? If all cars were electric, and were caught up in a three-hour traffic jam with dead batteries, then what? Not to mention that there is virtually no heating or air conditioning in an electric vehicle because of high battery consumption.

If you get stuck on the road all night, no battery, no heating, no wind-

shield wipers, no radio, no GPS (all these drain the batteries), all you can do is try calling 911 to take women and children to safety. But they cannot come to help you because all roads are blocked, and they will probably require all police cars which will be electric also. When the roads become unblocked no one can move! Their batteries are dead.

How do you charge the thousands of cars in the traffic jam? Same problem during summer vacation departures with miles of traffic jams. There would be virtually no air conditioning in an electric vehicle. It would drain the batteries quickly. Where is this electricity going to come from? To-

day's grid barely handles users' needs. Can't use nuclear, natural gas is quickly running out. Oil fired is out of the question, then where?

What will be done with billions of dead batteries, can't bury them in the soil, can't go to landfills.

The cart is way ahead of the horse. No thought whatsoever to handle any of the problems that batteries can cause.

In France, thousands of taxis are now stored as inoperable because the batteries are dead and to replace them would cost more than the value of the vehicle itself!

REP. YOUNG KIM IS A RINO!

*by Robin Itzler, Editor & Publisher
Patriot Neighbors*

If 2022 is going to be a Red Wave, then that gives MAGAs wiggle room to remove RINOs. REP. YOUNG KIM IS A RINO! Otherwise, we will continue this ridiculous cycle of electing anyone with an "R" after that name. In Orange County, California, this means either primarying out YOUNG KIM or letting the Democrat win. On December 1, Kim voted for the Immunization Infrastructure Modernization Act (H.R. 550). If the Senate passes this bill, there will be a FEDERAL VACCINATION DATABASE.

Not one Democrat voted against this bill, but 80 RINO Republicans voted for it including House Minority Leader Kevin McCarthy! A healthcare professional posted on Young Kim's Facebook there already is a database on vaccinations. We use it to update records all the time. The issue is what the Federal government wants to do with the information about who hasn't taken the COVID vaccine. Let's also remember that Young Kim:

X Arrived in Congress and her first act was to try to censure President Trump for the January 6 melee. No trial, just guilty per Young Kim!

X Almost immediately, while Democrats were giving Republicans the middle finger, Kim talked about reaching across the aisle. She also welcomed Joe Biden to Washington.

X Kim joined Democrats in ousting fellow Republican Rep. Marjorie Taylor Greene from committees. Did Kim try to oust from committees anyone from anti-American, anti-Semitic Squad?

This is an excerpt from "With 'Yes' Votes on a Federal Vaccine Database,

80 Republicans Want to Seal Your Fate—Seal Theirs and Vote Them Out," by Jennifer Oliver O'Connell (link below): Eighty Republicans crossed the aisle to help passage of this bill, including Minority Leader Kevin McCarthy (R-Turncoat). If he gained any currency in his hours long filibuster on the House floor a few weeks back, he spent it on this one. He can kiss that speakership goodbye.

Adding to the California contingent, Young Kim (R-Climber), who won her House seat back from Gil Cisneros in 2020, also voted "Yes." It's time to ensure she doesn't get that chance again. Young Kim should NOT be re-elected to Congress! Let Kim know your thoughts:
