Thursday, **St. Patrick's Day**

March 17, 2022

Everyone is Irish on St. Patrick's Day
Show your IRISH by wearing GREEN!

The Santa Ana Elks Lodge
1751 South Lyon Street
Santa Ana CA

Lunch Menu on Page 3
\$25

Check-in 10:30 a.m.
Meeting 11:00 a.m.

PROGRAM

Hear from The Candidates for Orange County Superior Court Judges

Featured Speaker

Eric Early

Candidate for State of California Attorney General

Eric is the Managing Partner and co-owner of nationally recognized law firm Early Sullivan Wright Gizer & McRae, LLP. He was lead counsel for California Patriot Coalition to Recall Gov. Gavin Newsom, and outside counsel for One America News network.

As lead counsel for Plaintiff Fair Education Santa Barbara, Eric brought the first lawsuit in the country four years ago to fight Critical Race Theory/the Marxist Indoctrination of students in the Santa Barbara Unified School District. This led to the termination of the District's Superintendent and the disclosure of the school district's indoctrination materials to all the people of Santa Barbara County.

Reservation Deadline: Friday, March 11, 2022

Call Peggy Baranyay
714-828-1289

Make checks payable to CPOC or register on line www.conservativepatriotsofoc.org

You will be responsible for the cost of your dinner reservation unless you cancel by Mon. March 14, 2022.

***CPOC expands by naming Election Integrity Committee to Board
Message from CPOC President Deborah Pauly, J.D.***

The Conservative Patriots of Orange County (CPOC) enjoyed an incredibly dynamic and fast-paced meeting in February. The Healthy American, Peggy Hall, attracted a lot of interest and she did not disappoint. Her uplifting message encouraged the patriot-activist community to stay strong and continue standing up for freedom and liberty during these trying times. Peggy Hall speaks our language. You can view part of her talk on our website under The Cal Report. (More on that below.) After the meeting, Peggy and her husband decided to join our action-oriented group. We are honored.

We also had updates on the two initiatives CPOC has been working since early December. Bob Walters, OC Chairman for the School Choice Initiative told us that the committee is moving full steam ahead, aiming for the November 2022 ballot. Laura Thomas, the CPOC liaison to the Our Neighborhood Voices initiative has informed us that they have suspended the efforts to overturn SB9 this election cycle.

CPOC has taken a formal position opposing SB 866, which would amend California's Family Code to allow children under the age of legal consent (12 to 18-years-old) to be vaccinated without parental knowledge or consent. We continue to monitor this bill, which was introduced January 20 by Democrat State Senator Weiner. Rule 55 was suspended, so it does not have to be in print for 30-days before action can be taken and it has been assigned to the Senate Judiciary Committee.

This month we are focusing on the law. Whom do we elect to interpret it and enforce it in our court? We have invited every candidate for judge in contested seats for Orange County Superior Court. So far, we have 7 confirmed candidates for judge who will present. Whether they attend or not, we will have a full list of candidates available for attendees to make notes. If you know of a candidate who should be included, have him or her contact us. Our confirmed featured speaker is Eric Early, who is running for California Attorney General, the top prosecutor in the state.

CPOC has established an Election Integrity Committee (EIC) composed of a core group of three men, who chose amongst themselves to elect James Peters as the chairman. As EIC Chairman, we welcome James to our Board of Directors. The April meeting will be all about election integrity. Our EIC will monitor the Orange County Board of Supervisors as they prepare to appoint a new Registrar of Voters, under the advice of County CEO Frank Kim. The current Registrar Neal Kelley, who has served in that position for nearly 18-years, announced his plan to retire effective this month and under the cloud of questions concerning election integrity in The OC. Interesting timing.

Also in April, we will welcome confirmed speaker Dr. Stefan Bean, who is running to become the new superintendent of Orange County Board of Education. He's taking on the incumbent and, from where I stand, that challenge is long-overdue.

Please, visit our website. We've added three new links: 1) Pauly's Perspective, The President's Blog; 2) The Cal Report by James Wallace in association with CPOC; and 3) a link to writings From the Desk of Robin Itzler, who was unceremoniously ousted from the Republican Women Federated without any hearing, by the way, for having the audacity to speak her mind. Finally, we have added a DONATE button. We want to keep our meetings affordable and our programs vibrant. With your help, we can do that. Visit ConservativePatriotsofOC.org

May the road rise up to meet you. May the wind be always at your back. May the sun shine warm upon your face; the rains fall soft upon your fields and until we meet on St. Patrick's Day, may God hold you in the palm of His hand.

CONSERVATIVE PATRIOTS OF ORANGE COUNTY

CPOC is the new kid on the block! We are energized to take the United States back to its foundation in capitalism and freedoms as proclaimed by our forefathers in the Bill of Rights. Our mission statement lists first that education is the key to what we want to achieve. We want an informed electorate. Our membership goal is to be inclusive. We will strive for members of all ages who are male, female, Republican, Conservative, Libertarian, Independent, and Decline to State.

Our monthly meetings will highlight prominent speakers and elected officials on current events, legislation, and political issues and solutions. Our next meeting will be February 17, at the Elk's Club in Santa Ana; See page one for details, speakers, date, location, and reservation information.

If you know somebody who wants to take back our once great nation, CPOC will give you the voice you need.

(Application for Membership is in this newsletter.)

MARCH BIRTHDAY GREETINGS

Our CPOC membership is
growing!!

At this time we have **128 members**, and new members are coming on board every day!!

We have many exciting speakers and candidates scheduled for the upcoming months.

There's much to learn and much to do to take back our country from the Marxists/Socialists and we can have the most influence in our local area if we stay active and informed.

With mid-term primaries just around the corner we need to activate and motivate all the patriots in Orange County to come learn about the conservative candidates who are running for office in Orange County and beyond. Please don't forget to invite your patriot friends, family and neighbors to join our organization. They can join in person, at our monthly meetings or online at www.conservativepatriotsofoc.org. There is a membership application at the end of this newsletter.

- 8 J.P. Clelland III
- 9 Alicia Vargo
- 12 Karen Wooley
- 16 Vicki Hoffman
- 24 Don Putzig
- 26 Stephanie Tilhof-Lesinski
- 29 Stephanie Townsend

Robert Ming the son of Douglas and Martha Ming died tragically in a private plane accident. He was a friend to many. Aside from being a wonderful son, he was a wonderful husband to his high school sweetheart, Susie, and father to their four children Jonathan, Katie, Wesley and Grant. He was a great servant to his community, having served as mayor for Laguna Niguel, in addition to many other public service positions. Above all, Robert was a man of the Lord and a man of the highest integrity.

Our prayers go out to the family.

St Patrick's Luncheon Menu

Carved roast beef and turkey, mashed potatoes, vegetable, green salad and dessert . \$25.00

*If you do not take an interest
in the affairs of your government,
then you are doomed to live under
the rule of fools.*

Sen. Todd Young of Indiana told *Punchbowl News* that the **House-passed an immigration bill with provisions to put Americans LAST:**

"If we can harness the talent of rank and file Americans, I really believe we can outgrow and out-innovate other countries. And that, of course, has very important national security implications, especially as you think about our strategic competition with China."

-- Indiana Sen. Todd Young,
Punchbowl News

SIT WITH WARRIORS

THE CONVERSATION IS

DIFFERENT

Dear Heavenly Father,

We pray for your hand of protection on the people of the Ukraine. May they turn to You as their refuge and strength. Grant them safety and comfort in these troubling times. Please give their leaders and the leaders of the world sound judgement in resolving this conflict quickly and to stop the bloodshed. We pray that Russia and her allies would cease all hostilities. We long for You to reign as the Prince of Peace.

In Jesus name, Amen.
Faith Canedo, Chaplain

Mission Statement:

"The Conservative Patriots of Orange County sponsor educational programs and activities to support conservative principles and candidates in all elections. We believe that the Constitution of the United States guarantees the inherent rights of "we the people" by limiting the power of government.

FROM ROBIN ITZLER'S PEN

War For Our Time

Appeared on American Thinker, February 22, 2022

Russia's President Vladimir Putin insists that the Ukrainian Donetsk and Lugansk regions are independent. Of course, Putin's idea of "independent" means the two regions should be part of Mother Russia. Does it matter? Putin is only sending in troops to "maintain peace."

Haven't we seen this movie before?

In 1936, Adolf Hitler went into the Rhineland and re-claimed it for Germany. And the world did nothing.

In 1938, Hitler marched into Austria, insisting that the people wanted *Anschluss* (union with Germany). Demanding a vote, the Nazis fixed the election. (Hmmm, where else have we heard about fixed elections?)

The fake result was that 99 percent of the Austrian people wanted to become part of Greater Germany. Austrian prime minister Kurt Schuschnigg begged Britain, France, and Italy for aid to stop Hitler, but none came because all of them believed Hitler's promise that *Anschluss* was the end of his expansion plans.

Hitler lied. Perhaps getting tired of vacations at his Obersalzberg chalet, a mere six months later, der Führer demanded that the Sudetenland region of Czechoslovakia become part of Germany.

Trying desperately to avoid war, Britain's Prime Minister Neville Chamberlain met with Hitler *three times* in September 1938. The result was the Munich Agreement that had Chamberlain holding a useless piece of paper and infamously stating, "Peace for our time." Most European countries celebrated the agreement that allowed Hitler to take the Sudetenland as long as der Führer promised not to invade the rest of Czechoslovakia.

In March 1939, Hitler invaded the rest of Czechoslovakia.

Italy's Mussolini, who was busy making the trains run on time, was now aligned with his Nazi counterpart. Now only Britain and France refused to hang swastikas in their embassy windows.

The world waited, hoping Hitler would stop invading. In the meantime, European countries were disappearing (along with Jews and those Christians who didn't want to say, "Heil Hitler!").

Not to worry. Britain and France had a great idea. If they just "threatened" Hitler with war, the short guy with a funny mustache would surely stay out of Poland.

Hitler laughed all the way to the Reichstag and invaded Poland in September 1939. By then, there was nothing the world could do but belatedly go after Hitler. World War II was the result. It saw an estimated 80–85 million people perish, including six million Jews whom the Nazis systematically murdered.

So, we have seen this movie before!

On February 21, Putin gave a long-televised speech from his Moscow office, where he claimed that Ukraine is an integral part of Russia's history. Will history repeat itself with the Western world believing that all Putin wants are the Ukrainian Donetsk and Lugansk regions, when Putin is really focused on the entire country of Ukraine? What about the other nations that used to be part of the Soviet Union?

Every honest person knows that if the 2020 election had not been stolen from Donald Trump and he was still in the White House, Putin would never have even looked at Ukraine, much

less invaded. But the Oval Office is occupied by a man who has a large "D" after his name — and that stands for dementia. Where the American people expect strength and confidence from the president, with Joe Biden, you get stories about Corn Pop, incoherent ramblings, and defeat. On February 17, Biden said: "My sense is [an invasion] will happen in the next several days."

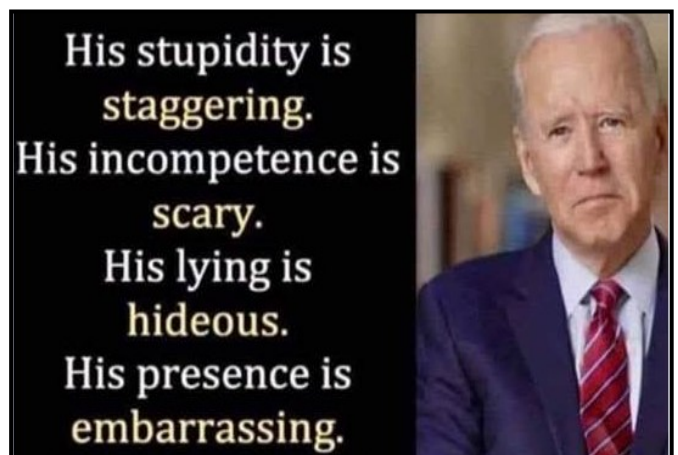

No one should be surprised by Biden's actions, since this is the same guy who abandoned Afghanistan in the summer of 2021 and left \$85 billion in sophisticated military equipment for the Taliban. Thanks to Joey, the Taliban is now one of the most advanced military forces in the region.

As Biden's grueling two-hour workdays keep him home practicing in front of a teleprompter for the March 1 State of the Union speech, he sent Vice President Kamala Harris to the Ukraine/Russian border. Having done such an outstanding job at the Mexico–United States border, it made complete sense to send Harris overseas for a Neville Chamberlain–like "peace for our time" visit.

In keeping with her astute understanding of world history, while in Munich, Harris exclaimed:

I mean, listen, guys, we're talking about the potential for war in Europe. I mean, let's really take a moment to understand the significance of what we're talking about. It's been over 70 years. And through those 70 years, as I mentioned yesterday, there has been peace and security. We are talking about the real possibility of war in Europe.

George Santayana once said, "Those who do not remember the past are condemned to repeat it." With Biden and Harris running things, we might be condemned to "war for our time."

A lot of folks can't understand how we came to have an oil shortage in our country.

Well, there's a very simple answer. Nobody bothered to check the oil. We just didn't know we were getting low.

The reason for that is purely geographical. Our OIL is located in: Alaska, California, Coastal Florida, Coastal Louisiana, Coastal Alabama, Coastal Texas, North Dakota, Wyoming, Colorado, Kansas, Oklahoma, Pennsylvania and Texas.

Our dipstick is located in the White House! Any Questions? NO? Didn't think so.

Status of SB9

Our Neighborhood Voices Initiative is suspending the gathering of signatures. It is not uncommon that these efforts might take a couple of times to get them on the ballot, and we will keep you informed as we know more. Please do not discard the signatures. Return them to me at 7211 E. Clydesdale Ave. Orange 92869 Or call 714-264-4242 I will pickup.

I personally want to thank each of you for your committed effort in gathering signatures. I applaud you for your positive "can do" attitude. Your accomplishment of the signatures gathered is success. We each did our part and should be proud.

Regards,

Laura Thomas

California Voter Integrity Mission

By Molly Watkins and James Peters

What started my quest to learn what happened in the 2020 election? - Seeing over 300,000 votes deleted from Trump and given to Biden in Pennsylvania on live TV in the 2020 Election was odd. Then, the voting halted at midnight on November 3, 2020, and for the first time in US History continued for another month. That's when I traveled down a rabbit hole.

Digging deeper, I learned both parties have been stealing elections and it appears it has been going on for at least 20 years.

.Watching Documentaries by HBO - "Hacking America" and "Kill Chain" and Documentaries by Michael Lindell - "Absolute Proof", "Scientific Proof" and "Absolutely 9-0" one could easily conclude that the voting machines have both software that manipulates votes with an algorithm and is easily hacked via the internet.

Hart Intercivic acknowledged that they put modems into some of their tabulators and scanners to help relay the results more quickly to the public via the internet - the same system used in San Joaquin County. These systems are easily hackable. Is that how California can declare the results in 2020 even before the polls closed?

In the Recall Election, how did Newsom get the exact vote count to the first decimal point as he did in the 2018 election--61.9%? This indicates some computer manipulation of the election. There were 400,000 votes in the 2021 Recall deleted during CNN's live television coverage from the "yes" column on September 14, 2021. We also know hundreds of ballots were mailed to people who no longer live in California.

Too much evidence of election fraud with too many red flags - our vote no longer counts. Our elections were stolen with massive fraud from both major political parties. Our State must adopt the voting system used in Europe--all paper ballots, in-person only voting with voters showing a government-issued identification, and hand-count ballots in each precinct. Ballot boxes need cameras with real-time viewing by citizens. Within two hours after the polls close, all ballots are counted and reported via fax or phone. Very simple and secure.

We must stand together and fix our election process. Thomas Paine reminds us, "Those who expect to reap the blessings of freedom, must, like men, undergo the fatigues of supporting it." This is our moment in history to restore our voting system and ensure liberty and freedom.

James Peters is Chairman of the CPOC Election Integrity Committee (EIC), which will focus on election integrity in Orange County voting.

Movie To Watch on March 14th at 7 PM

"Whose Children Are They" is a documentary only showing one night and only in some theaters. Many are already sold out so check your options now and buy your tickets. This is a professional documentary which pulls back the curtain on what is happening in our schools today. It is a starting point for a national conversation on the original intent of education not indoctrination allowing a healthy involvement of the parents.

It also brings focus on the need for CA school choice initiative which will greatly weaken the teachers union while enhancing the power of parents to choose what school and education they want for their children. Time to end CRT, Sex education bordering on pornography, LGBT propaganda and hatred for all that America stands for. We now have about 750,000 signatures and only four weeks left to get the rest needed to put on the ballot.

CPOC ACTIVISTS STOP BAD LEGISLATION

After word was spreading about Orange County's Assemblyman Steven Choi introducing AB 2539, phone calls and emails started hitting his office.

As introduced by Choi on February 17, AB 2539 would have required a public or private entity that requires a member of the public to provide documentation regarding the individual's vaccination status for any COVID-19 vaccine as a condition of receipt of any service or entrance to any place to accept 1) a written medical record; or 2) government-issued digital medical record in satisfaction of the condition, as specified.

After grassroots contacts, he has withdrawn that legislation. Another good job by watchful activists!

A better piece of legislation would have prohibited public entities from requiring proof of vaccination status by any individual seeking entry to a public place whether it be government or business.

Steven Choi-IRVINE REPUBLICAN RINO

What Do We Know About Vaccines ?

Anonymus

Among all the vaccines I have known in my life:

- polio
- diphtheria
- tetanus
- smallpox
- typhoid
- anthrax
- Rotavirus
- measles
- rubella
- chickenpox
- hepatitis
- meningitis
- tuberculosis
- flu and pneumonia

I have never known of a vaccine that still required us to wear masks and maintain our social distance, even when fully vaccinated.

I had never heard of a vaccine that spreads the virus even after vaccination.

I had never heard of rewards, discounts, incentives to get vaccinated.

I never saw discrimination for those who didn't.

I have never known of a vaccine that threatens the relationship between family, colleagues and friends.

I have never seen a vaccine used to threaten livelihoods, work or school.

I have never seen a vaccine that would allow a 12-year-old to override parental consent. (even in Canadian schools)

After all the vaccines listed above, I have never seen a vaccine like this one, which discriminates, divides and judges society as it is.

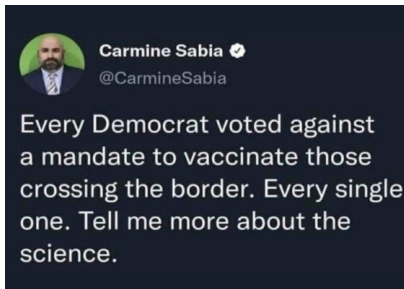

And as the social fabric tightens... It's a powerful vaccine!

It does all these things, except IMMUNIZATION, if we still need:

- 3-monthly booster doses after we are fully vaccinated
- a negative test after we are fully vaccinated
- a mask after we are fully vaccinated
- to be hospitalised after we have been fully vaccinated

It's time for us to admit that we've been completely deceived.

Or maybe I'm missing something... Probably not though .

What National Park in the United States is 150 years old as of March 1, 2022

By Betts Rivét,
CPOC Americanism Chairwoman

The answer is Yellowstone National Park located in the north-west corner of Wyoming. President Ulysses S. Grant signed into law *America's first national park* to preserve and protect the scenery, cultural heritage, wildlife, geological and ecological systems as well as to maintain the natural condition of that area for the benefit and enjoyment of present and future generations.

Perhaps you did not know that Yellowstone is one of the last and largest nearly intact ecosystems *on our plant*. There are over 10,000 hydrothermal sites and half of the world's active geysers. Plus it is rich in cultural and historical sites, landmarks and districts listed on the National Register of Historical Places.

That's not all! For over 10,000 years it was a place where 27 Native American tribes lived, hunted, fished, quarried obsidian, and used thermal waters for religious and medicinal purposes. Now, even after the fires of 1988 and the bison population almost killed off, modern resource management efforts restored the native fish, the population of grizzly bears, bison, and gray wolves. Yellowstone's ecosystem is the healthiest it has been in over a century.

To celebrate an incredible 150 years, partners and nearby communities are planning virtual and in-person activities in Yellowstone National Park throughout the year which can be followed on social media. Partners include university, environmental, conservation and tourism groups in and around Yellowstone National Park in Wyoming. Congratulations to the first national park in America for 150 years of preserving and protecting this very special natural site.

Kevin Costner will narrate a Fox four-part series on Yellowstone. "Yellowstone: One Fifty", focusing on the parks' history and wildlife. It is expected to debut on Fox Nation this Fall.

Costner is a 1973 graduate of Villa Park High School.

As President of the Conservative Patriots of Orange County, I am excited to announce that Peggy Hall and her husband, Pastor David, joined CPOC after our dynamic meeting Thursday night.

She reminds me we can choose to be Healthy Americans !
That means being mentally, emotionally, physically and spiritually

Highlights of the February CPOC Meeting

Susan Shelley of the Howard Jarvis Taxpayers Association made a presentation on an initiative effort to Stop The Death Tax.

Member Bob Walters has been collecting signatures for the School Choice initiative at every meeting. He is the Orange County chairman of this statewide effort to put parents in the drivers seat.

Maybe there should be ice cream at every meeting? This is spumoni to compliment the lasagna dinner.

MEET THE BOARD

Homeschool moms enjoyed the program

CPOC is blessed to have the dedicated volunteer spirit of our wonderful Membership Chairwoman Michele Mar-
kel.

Always smiling and ready to help, she has been busy processing our new membership applications as fast as they come in!

She even enrolled in some computer software classes to brush up on skills so she could be of greater service to our conservative community.

PEGGY HALL was inspirational. She kept everyone's attention .

NO MASKS it was a great evening!!!!

Mom's taking notes

Laura Thomas with new members

LETTERS TO CPOC

To Deborah Pauly, President of CPOC:

Dear Deborah,

I appreciate your standing up to CFRW and their insane censure and ousting of Robin Itzler from their organization! It is especially sad to see Freedom of Speech being attacked by so-called Republican Groups!

Robin is an outstanding spokesperson for our Constitutional Rights of Freedom of Speech, Assembly and America First as part of the values which we all hold dear.

She is a stickler for exposing fraud and fake news and shedding light on issues which need action by providing the information on who to call, where to write, where to email, etc.

The hypocrisy of the Rino's is matched by the CFRW as they selectively enforce or ignore Bylaws. Clearly, they are behaving more like those Democrats! Robin will continue to rise as cream does to the top!

Best Regards,
Mollie Lazarus

San Clemente Area Republican Women, an independent club!

U.S. Supreme Court Ruling

THE SUPREME COURT HAS UNANIMOUSLY RULED AGAINST ALLOWING ILLEGAL ALIENS THAT HAVE TEMPORARY PROTECTED STATUS TO APPLY FOR PERMANENT RESIDENCY.

The court determined that federal immigration law prohibits TPS recipients from seeking green cards if they entered the country illegally.

Immigrants are required to have been "inspected and admitted or paroled" in the U.S. before they would be eligible to apply for permanent residency, which prohibits illegal aliens.

There are currently 400,000 people from 12 countries with TPS status in the US.

"The TPS program gives foreign nationals nonimmigrant status, but it does not admit them. So the conferral of TPS does not make an unlawful entrant...eligible" for a green card, Justice Elena Kagan wrote.

The Associated Press reports that Kagan noted the House of Representatives has already passed legislation that would make it possible for TPS recipients to become permanent residents, but the bill faces uncertain prospects in the Senate.

"Monday's decision does not affect immigrants with TPS who initially entered the U.S. legally and then, say, overstayed their visa, Kagan noted. Because those people were legally admitted to the country and later were given humanitarian protections, they can seek to become permanent residents," the report states.

Newsmax confirmed the story:

THINGS THAT DRIVE THINKING PEOPLE CRAZY

Welcome to Year 3 of the **Chinese Virus**. Here are some thoughts under the “Biden Build Back Broke Disintegration Plan”:

According to the American Petroleum Institute, we have enough oil in North America to fuel every single passenger car and long-haul truck for the next 430 years. We have enough natural gas to provide electricity for every business and house hold for the next 535 years and enough coal to provide electricity for about 500 years. So, don’t you think that in 430 years we will have developed alternative fuel sources?

Why then did Joe Biden sacrifice America’s energy independence, cease all exploration for oil and gas, abandon pipeline development and drive up prices of gasoline, heating oil, and jet fuel and make us once again dependent on foreign oil?

Isn’t it curious that in some states like California, Washington, Illinois, and New York, shoplifting of items less than \$950 is not a crime but the Biden Build Back Better Spendalooza calls for hiring 87,000 IRS agents to monitor individual banking transactions of \$600 or more? Fascinating.

Someone needs to educate me as to how we are going to produce all the batteries needed to facilitate a transition away from fossil fuels to battery-driven vehicles when the basic ingredients for batteries are all found in rare minerals such as lithium, cobalt, and zinc and others, all of which must be mined in countries not exactly friendly to us. Also, if you have ever driven on the Cross Bronx Expressway or the 405 in Southern California and were stuck in traffic, how exactly will the repair truck reach a disabled vehicle before their battery dies...along with the batteries of all the other vehicles in traffic?

When will construction start to build the 500,000 battery charging stations Joe Biden told us about? Where will they be situated? Won’t they be powered by burning fossil fuels?

If you ever feel like you haven’t accomplished anything, try to remember that it took 20 years, trillions of dollars and four Presidents to replace the Taliban in Afghanistan with..... the Taliban.

If you feel your job is hard and you are unappreciated, think about the poor slob who serves as the sign language interpreter for Joe Biden.

Let me try to understand this: we can’t seem to find illegals to deport, but we can sure find them to give them money! How does that work?

If there was a barnyard election, the pigs would always vote for the person that feeds them and gives them treats, even though that same person is going to slaughter them someday. That same philosophy is the very definition of socialism.

Memo to Generation Z and the Woke Generation: The Stars and Stripes that fly over our Nation’s Capital and are wrapped around the coffins of our honored dead who sacrificed their lives to keep us free, is my Flag. I will never apologize for it. The Flag does not stand for skin color, race, or religion. It stands for freedom. Never forget that!

RAND PAUL GIVE THE REAL SOTU ADDRESS

“Tonight, you heard a speech by someone who doesn’t know what’s going on in the union,”. “Or at least he is hoping you don’t know.”

“What’s the state of the union? Russia’s invasion of Ukraine has led to the worst crisis in Europe since World War II. Massive inflation is everywhere, the likes of which we haven’t seen since the malaise of Jimmy Carter. “Parents are frustrated from almost two years of bureaucrats messing with their kids’ schooling. Everyday Americans seeing their freedom, jobs, and livelihoods stolen from them by petty tyrants drunk on power with lockdowns and mandates.

Of course, that’s if you can even get the food. Supply chain issues from our COVID policies have continued to bring empty shelves and late deliveries of just about every item in our economy, From meat to used cars, from raw materials to boatloads of goods, the delays are ongoing.”

“Congress added trillions of dollars in new debt to pay people to stay home from the lockdowns that Congress mandated.”

“Parents are being told they’re not in charge of their kids’ education, then watching as critical race theory and extreme gender issues are brought into their small children’s classrooms — that’s if their kids are even meeting in person in a classroom at all,”

“Biden and his followers want you to believe they’re following the science, but it looks more like political science to many of us,” he continued. “There have been many casualties of the Biden policies so far: science, freedom, prosperity, strength in the world.”

“Democrats in Congress who clapped and cheered tonight bear much of the blame as well,” he said. “They passed the spending bills and enabled the appointees who have made this mess.”

“Thankfully, one thing I can say without flinching about Americans is that the state of our union can and will bounce back,” he said. “We can get our spending under control. We can retake our freedom. We can stop the left from taking over our schools, and we can fix our foreign policy again. ... It starts now. Parents are fighting back. People are listening to other voices with real science on their side. And men and women are running for office to take back Congress. Next year, I am hopeful the message will be better, our outlook brighter. For now, keep fighting and hoping, and our best days can and will be in our future .
