CONSERVATIVE PATRIOTS OF ORANGE COUNTY PRESIDENT DEBORAH PAULY'S STATEMENT ON FBI RAID OF FORMER PRESIDENT'S PERSONAL RESIDENCE.

FOR IMMEDIATE RELEASE - Orange, California (August 11, 2022) — Outrageous! Outrageous is the only way to describe the weaponization of the FBI by the Biden administration against a former president and political opponent.

CPOC strongly condemns Monday's raid of former-President Donald J. Trump's private Florida residence, Mar-a-Lago, by the FBI. This action is indicative of a banana republic run by a despot and founded on tyranny. In plain language, this was an unreasonable and arbitrary use of power that was politically motivated. It is unequivocally unAmerican. It should shock the conscience of every American.

To execute a valid search warrant, that warrant must issue from a neutral and detached magistrate. As facts emerge, it is clear that the issuing judge, Bruce Reinhart, is a highly biased partisan who has had to recuse himself in the past for incurable conflicts of interest. He is politically compromised.

CPOC is calling on the Orange County Republican Party and the Republican Congressional candidates to condemn this act of FBI tyranny. So far, Michelle Steel (who proceeds only under the careful thumb of her anti-Trumper serpentine husband Shawn Steel, the self-serving California Republican National Committeeman), Scott Baugh, and Young Kim have been mute. Their silence is outrageous.

They may very well find the voters mute on their behalf at the ballot box come November 8th. There will be a nationwide red wave. Orange County does not have to add to the problems in D.C. by sending more of the same. We need patriots.
