

PAULY'S PERSPECTIVE

A Message from Our President Deborah Pauly, J.D.

Where's
the
Beef?

We've Got a Beef With RINOs Running the GOP Into the Ground!

I believe that our country was founded to be One Nation, Under God.

God is not a God of confusion, but of peace. Right now, in our country, there is confusion everywhere. It is purposefully being created. It is being created to destroy. Because it does not generate a sense of peace, we can know that it is not from God. Rather, it is from the enemies of God.

During CPOC's very first general membership meeting in January 2022, I posed a question of Gina Gleason, one of two guests invited for a moderated discussion. We sat in easy chairs on the stage and engaged in open conversation for the edification of those gathered. I asked, "How can the faith-based community work more effectively with the Republican Party to be more successful in local politics?"

Everyone knows Gina Gleason. She's the powerhouse behind Real Impact and a right hand political advisor to Pastor Jack Hibbs of Calvary Chapel Chino Hill. She paused before her thoughtful answer....

"First of all — God does not need the Republican Party."

I did not expect that answer.

However, it is certainly true. God does what He wants, how He wants and when He wants. Proverbs 21:1 tells us that "The king's heart is *like* channels of water in the hand of the Lord; He turns it wherever He wishes." I am certainly not qualified to be a pastor, but I have long believed that if we don't actively seek to invite God into the discussions taking place in the public square, we will continue to languish in a prison of our own making.

CPOC's March meeting was almost destroyed by the efforts of liberal operatives who want to disrupt the Education Reform agenda. Anyone with extensive experience in how the left operates to discredit and neutralize effective push back should recognize **Liberal Tactic 101: Scream RACISM!**

That is what happened.

No one should be influenced by hollow and unfounded claims that a patriot activist is a racist. Controversial and inaccurate posts of pure rubbish by a **liberal troll**, who goes by →

InMiniVanHell,” were designed to stir up teacher’s union operatives and pressure school board trustees NOT to educate and inform the concerned parents and grandparents who gathered in March. These progressive liberals know CPOC is organizing and will be effective against them.

I have been aware of this particular troll, InMiniVanHell, for some time, but I blocked her about 2-years ago because she was so annoying and obviously unhinged. I have since learned that **her name is Brianna Walker**. She resides in Mission Viejo. She has been responsible for Doxxing a great number of Patriots in Orange County, particularly in South County. She is a very effective liberal operative who has gotten people fired and hurt businesses, among other damaging ends.

**Brianna Walker aka
InMiniVanHell**

We have learned these things through the network of CPOC members who connect the patriot community in Orange County. This time her crosshairs targeted Bob Walters, a long-time activist in education reform. Bob’s primary focus has been reintroducing the trades back into the public schools. The liberal purpose in making unfounded claims that Bob Walters is a racist was to cause confusion, fear and intimidation of the trustees and the attendees to prevent us from aligning against them and their unsavory agenda seeping into our public schools.

CPOC will not be intimidated by liberal union operatives! They have run roughshod over concerned parents in our community for too long. Brianna Walker will surely be a major player in the upcoming elections and in recall efforts of conservative school board trustees. She will be effective **only if we allow her** to silence us.

All the trustees, but one, pulled out of the March meeting at the 11th hour. Our lead organizer, the faithful and highly experienced Linda Cone, co-officer of CPOC’s Education Committee, was scrambling to salvage the program. The one trustee who spoke was the most sophisticated because he has weathered and witnessed many storms in nearly three decades of fighting destructive liberal policies.

Those in attendance learned how to be strong and bold in the face of liberal bullies. Those who did not attend where denied the opportunity to be mentored by more mature, experienced activists who have walked this walk before, gone before them, and survived the onslaught. In the art of war, it is important to “know thy enemy.”

Together, we should support those trustees who are the “tip of the sword” on our behalf. It is the **responsibility of a local elected official to be OUR first line of defense. It is our civic duty to stand arm-in-arm with them as they fight for shared values.**

To be part of this important citizen army, you cannot cower in the face of threats, fear and intimidation. Wars are not won that way. All that happens, is you expose your soft underbelly; the enemy knows where to strike next time. It’s misguided to think they will play nicely if you roll over and succumb to their threats.

I want to call your attention to one other individual. She is another prolific and deranged liberal operative. Her name is Michelle Weisenberg. She attends nearly every OUSD Board meeting and attacks conservatives on that board. In particular, she has attacked a board member for social media posts about prayer vigils at the OUSD HQ flag poll.

See the photos of disgusting screenshots on the next page taken off Michelle Weisenberg’s personal

social media page in 2018 when “pussy rallies” were taking place around the country. Michelle took her two young children to these rallies: daughter wearing penis antenna on her head and son being made to hold a giant, blow up penis with a cartoon face. (NOTE: We have blocked a portion of their faces, even though their own mother did not have the decency to protect her children from future embarrassment.)

In a follow-up picture Michelle is kissing the giant penis. It’s shocking, but that’s not the main point. The main point is to demonstrate visually for you the type of individual who is seeking to influence public education in our communities. She had no problem posting these photos on her social media page for the entire world to see. Yet, she has a problem with a post concerning prayer seeking God’s intervention to stop hideous abuse of children.

Dr. Ken Williams, 3rd District Trustee, Orange County Board of Education, shares a video about the secret social transitioning of students at the Newport Mesa Unified School District (NMUSD). This 16.5 minute video is very concerning and will be shown at the board’s meeting, Wednesday, April 12, 2023. However, you may download it [here](#). I encourage you to watch it and share this column with others.

Also, be sure to read a personal account (page 7), reported anonymously by a CPOC member, who was able to understand what had happened to her daughter in an OUSD school after attending the March meeting. Yes, this is happening right here in Orange County.

If you missed the March meeting, you missed an amazing meeting.

You do NOT want to miss the April meeting. We’re serving beefy burgers because we HAVE A BEEF WITH THE GOP. They don’t listen to the grassroots patriots and they have no fight in them. In fact, they often join forces with the liberals to discredit conservative patriots who are demanding more from the Republican Party. We want new, responsive leadership. They just keep dishing up the same old RINO retreads!

Back by popular demand! Attend the CPOC roundtable workshop with your Assembly District allies! We will employ leadership from the bottom up, instead of dictating from the top down. New shoots will spring forth at the April meeting. With sunlight and proper care, new leaders will bear fruit.

What Michelle Weisenberg believes is appropriate for her children, may not align with the sensibilities of most parents.

Michelle Weisenberg’s personal social media posts.

See you there!
