Patriots Unanimously Condemn “Rigged Trial” Conviction of Former President Donald Trump on 34 Faux Felony Charges

FOR IMMEDIATE RELEASE - Orange, California (May 31, 2024) — Yesterday was a very sad day in American history as a former president was found guilty of 34 (dare we say “trumped up”) politically motivated felony charges in a New York courtroom.

“This trial, along with three other criminal prosecutions taking place in Georgia, Florida and Washington D.C., is nothing more than a campaign strategy of the left,” said CPOC President Deborah Pauly. “These rigged trials are designed to weaken Biden’s chief political opponent and deflect former President Trump’s energies away from the campaign trail.

“Many CPOC members have reached out to express their distress at how far the American justice system has fallen,” said Pauly. “You have to look at the jury pool. It was a highly biased jury pool and the court denied a change of venue, but God will take what the enemy meant for evil and use it for good. This strategy will backfire. It already has.

“True patriots are digging in their heels to declare their allegiance to Trump, whose campaign message has launched a revival of American exceptionalism with the MAGA movement. Make America Great Again resonates with the people and there is no way for Trump’s opponents to counter that,” said Pauly, adding. “This verdict will be appealed.

“Basically, Trump has been convicted of being the leading candidate for president of the United States. That is his only crime.

“CPOC is pleased to unequivocally and unapologetically declare our support of Donald Trump,” said Pauly. “We will do whatever it takes to help Trump Make America Great Again. We love our country and we love that Donald Trump is fighting to restore our nation at great personal cost to himself.”
